Preparing students to be active participants in a lifelong journey of learning!

The good food is vital to children's health and academic achievement, and to the broader life of the school.

First MySchool Staff Meeting

On a Wednesday evening, September 30th, Ms. Samia Belushi, the MySchool Principal excitedly welcomed back her staff for the school year of 2015-2016. MySchool is in its fourth calendar year running full staff.

Ms. Samia began the evening by having each teacher (new and returning) introduce themselves. Ms. Samia presented to the MySchool's staff the visions, future goals, and objectives. Included in the presentation was the announcement that MySchool will begin the PYP Program for 1st and 2nd Graders in January. Launching in the middle of the first semester, students will begin the Scratch Program during ICT class. It will be headed by the IT department with the cooperation of the Engineering Village.

Ms. Iris ended the session with a presentation about Google Drive. Ms. Iris explained to the teachers how to access and utilize Google email, and also how to share a Google document on Google Drive. Most of the work that teachers do, is on Google Drive. This is in hopes to cut down on the use of paper and make it more efficient for class material and information to be transferred between colleagues..

The evening ended with a catered dinner for the staff.

MySchool meals are healthy meals that are required to meet the kids' needs. Our meal programs meet strict nutrition standards. These standards, require school to offer students the right balance of fruits, vegetables, milk, whole grains and lean protein with every meal.

Google Classroom is a useful and beneficial tool for both teacher and student. Teachers from all over the world are using Google Classroom. Google Classroom is utilized not just by the Primary and Secondary teachers, but by the Higher education teachers, too. Google Classroom is available to Educational institutions with the Google Apps for Education. At MySchool it is available for all their teachers.

By using Google Classroom in my class, it enforces the 'going paperless' vision at MySchool. Students do not have to worry about misplacing sheets of papers. It designates a place for the teacher to post assignments and provide resources without the use of paper. It saves time for the teacher to post important information in once place, such as announcements, assignments, extra practice exercises, and short questions.

In fact, using Google Classroom allows for learning to continue outside of the classroom, it probes the student to dig deeper into their previous knowledge and build new topic knowledge. With Google Classroom, learning material is posted in the form of educational videos and articles. Students can view, post comments, and reply to their classmate's comments. It also allows students to be engaged with questions and answers. Students develop critical thinking when

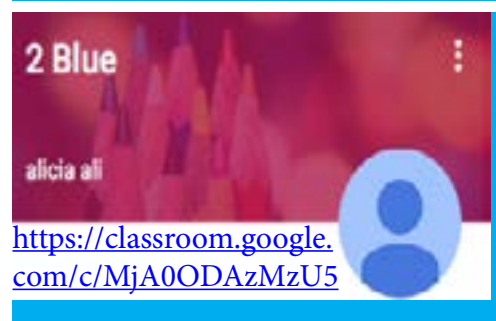

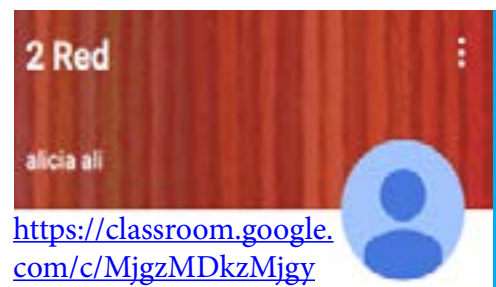

sharing their ideas and opinions, which happens with collaboration and communication inside and outside the classroom.

Furthermore, I have found that using Google Classroom with my students has allowed me to stay organized; helps me stay in tune with my students as they learn a new topic; and at the same time it is a way to assess my student's knowledge as we progress in the units in the book. I award points to students who put effort in learning, this will positively encourage my students to use Google Classroom. These extra points will add up at the end and will help students raise their grade.

Indeed, support and encouragement are required from the parents at home. Parents should understand the benefits for their child when using Google Classroom. Most importantly, supervision should be practiced at home when their child is using the internet.

My hope is for every student to be actively using Google Classroom. With the collaboration and cooperation between parents and teacher the benefits of Google Classroom will have a tremendous impact in their child's education.

Mrs. Islam Mohamed - Music Teacher

MySchool welcome the new teachers

LEARNING HOW ICE CREAM IS MADE

It was an exciting day for our Grade 2 Green students, because during English Language period they assisted their teacher on how to make Ice Cream. The students brought the ingredients such as milk, cream, sugar, and vanilla needed to make vanilla flavored ice cream.

The students were lead into the school kitchen to perform the steps to make ice cream. With my supervision, the

students carefully added the ingredients into the blender to ensure that all ingredients are mixed and combined nicely together. This will result in a smooth and silky mixture. Once the ingredients were blended together, the mixture was then placed into a bowl and then placed into the freezer to harden.

At last, after waiting patiently, Grade 2 Green students were going to finally see and taste the

final product. The mixture had turned into ice cream. The students learned the steps to making ice cream, and that the mixture that once was soft, had hardened from the cold. Happily the students shared together and enjoyed a scoop of delicious and cold vanilla ice cream that they had made.

KEEP THE SCHOOL HEALTHY AND GREEN

We are learning that plants help our environment to stay balanced, beautiful, and clean. Also, plants make food for everyone and help fight global warming. So plants need our help to look after them to make this world better.

At MySchool, we are cultivating and raising awareness in our students to have a sense of

responsibility towards their school, country, and environment through planting and growing plants as a practical activity in the Science subject.

Grade 5 Blue and 5 Green students have planted new beautiful plants on the school grounds, as well as looking after the plants that were planted by the students from the previous

years. My students have investigated all the factors and techniques that are required for plants to grow well, and applying those techniques in class.

We do believe in the importance of keeping MySchool GREEN and HEALTHY.

Science Teacher

Unit Exhibition for English Language, Science, and Math

On October 29th, MySchool held its first Unit Exhibition. Parents were invited to come and view their child's projects in their classroom. Students have been preparing for weeks for the upcoming event. Projects were based on the information from the Units covered in the past weeks in English Language, Science, and Math.

Volleyball at Nadi Al-Amal

Ten of MySchool students in 5th and 6th grade played volleyball at Nadi Al-Amal in Gala on Wednesday, November 4. It was an all day event for them. MySchool encourages all students to participate in sports activities

for the health benefits of exercise and also for the importance of teamwork and team spirit. MySchool students were accompanied and supervised by Coach Talat.

مدرستي تصدر المدارس الخاصة في ألعاب القوى وتحرز المركز الأول على مستوى المدارس الخاصة حيث فازت الطالبة غدير سالم الراسبي من الصف السابع بمسابقة مائتي متر ولم يجارها أي من المتسابقات في الحصول على هذا المركز وكان هذا التفوق نتيجة جهد وتدريب استمر لفترات طويلة بمساعدة الأستاذ / طلعت محروس معلم التربية الرياضية بمدرستي الخاصة

قهوة الصباح

قدم براعم الروضة 'مدرستي' الروضة والتمهيدي
 فعالية قهوة الصباح الذي عبق خميسة برائحة
 أزكى من القهوة ، متمثلة بحضور الأهالي ومديرة
 المدرسة ومشرفة الروضة ، فافتتح صباحه بعبق
 من القرآن الكريم وكلمة لمديرة مدرستي
 فخلق بعدها براعم الروضة كالعصافير واثروا
 ساحة المدرسة بعروض متنوعة ابتكرها معلمات
 روضة مدرستي ، حيث اعتمدن على تفعيلها من
 خلال العروض والأنشيد التعبيرية والصور التي
 تخص البيئة التعليمية متنوعة بين العربي
 والإنجليزي فعبوا عندها حسب ما أملت عليهم
 طفوتهم إذ خرجوا بهيئة مشرفة أمام الحضور
 وأولياء الأمور وطواقم المدرسة
 وختاماً لاقت الفعالية قهوة الصباح 'صدي
 جميعهم قبل أولياء الأمور والحضور فقد عبو
 عن فرحتهم بما قدمه أطفالهم بلبث من
 الفرح.

فوز مدرستي بالمركز
الأول في مجال
صناعة الألعاب
التعليمية

مدرستي الخاصة تجني ثمار غرسه دام ثلاث سنوات ببذل جهده وعرقه مع
معلميها ومعلماتها ؛ ليكونوا عنواننا حقيقيا معبرا عن إمكانيات مدرستي
الحقيقية ؛ فتحصل معلمة من معلمات مدرستي على المركز الأول في مجال "
استخدام الألعاب والوسائل التربوية " فما أعظمه من مجال وما أروع من
تفوق على كل مدارس السلطنة فكان الفوز في مضممار التربية على عشرة مدرسة
من المدارس العالمية حيث قدمت المعلمة نموذجا لتوظيف الألعاب في
التدريس ، فما أروعك مدرستي

MySchool Reading Contest

- The English Department in MySchool announces the start of a reading contest which begins on Tuesday November 10th and ends on Thursday December 24th, 2015.
- This contest is open to all MySchool students from grade 1 to grade 7.
- Participants have to borrow a book in English language from the school library or bring a book from home and show it to their English teacher for approval.
- After reading a book, you have to complete a book report and draw a picture about it. The book report template will be handed to participants by their English teacher.
- One winner from each class will be selected at the end of the contest. Selection will be based on the creativity shown on the participant's reading log.
- Students willing to participate have to register their names by contacting their English teachers.
- Participants are requested to bring a drawing notebook A3 size to be used as a reading log.

10 November - 24 December 2015 grade 1 -Grade 7
